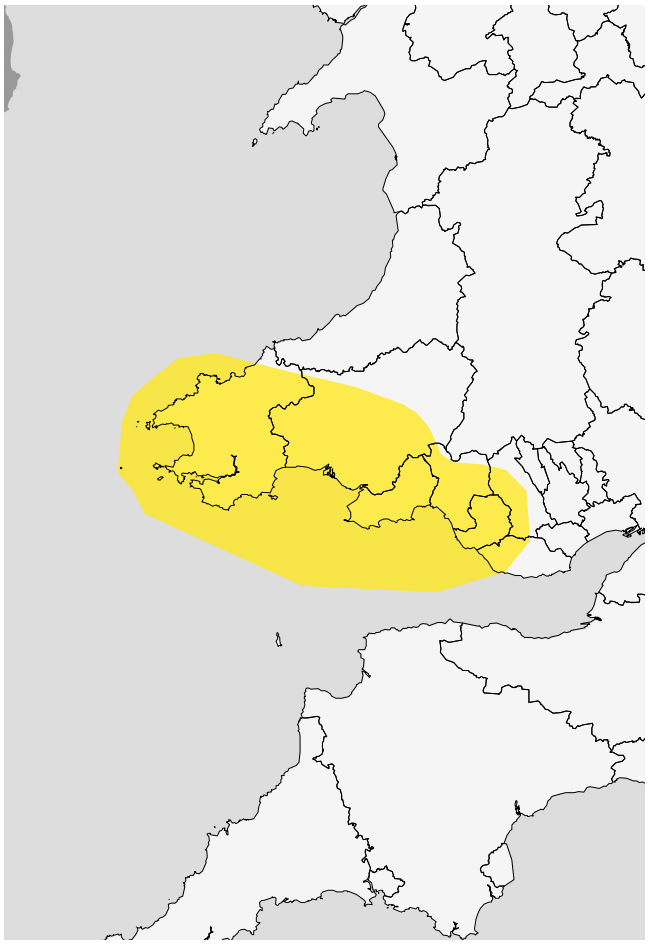
Yellow warning
Rain

Between
06:00 Sat 10 Nov 2018 and
09:00 Sun 11 Nov 2018



Bands of heavy showers will affect south Wales at times.

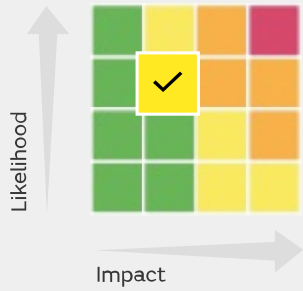
What to expect

- Flooding of a few homes and business is likely
- Bus and train services probably affected with journey times taking longer
- Spray and flooding on roads probably making journey times longer

Further details

Showers will affect many southern and western parts of England and Wales with more organised bands of heavy showers at times. These could produce 15-20 mm of rain in 2-3 hours in some places.

Given the saturated ground, due to the heavy rain of recent days, parts of south Wales are most likely to see some temporary surface water flooding impacts, particularly Saturday morning and again early on Sunday morning.



Medium likelihood of low impacts
